The SLTB is empowered to take measures to regulate the tea cultivation, manufacture, sale, export, import and marketing of tea as provided for in the Tea Control Act No.51 of 1957, Tea (Tax and Control of Export) Act No.16 of 1959 and Sri Lanka Tea Board Law No.14 of 1975.

(b) The Board of Directors of SLTB consists of a Chairman, and other members who have knowledge and experience in different aspects of the tea industry with special reference to planting, research, manufacture, marketing, sale, export etc. appointed by the Honourable Minister under whose purview the subject of Plantation Industries, falls.

(c) Tea from Uda Pussellawa Agro-climatic region of Sri Lanka

Sri Lanka (formerly Ceylon) is an island of 65,610 sq.km., located between 5° 55'- 9° 51' North of the Equator, ascending from sea level to approximately 2400 meters. The average temperature in the country varies from around 28° C in low lands to around 15° C in the high elevation. The first commercial tea plantation was established in Sri Lanka in 1867 and tea is grown in three different elevations from sea level as Low grown Ceylon Tea, Medium grown Ceylon Tea and High grown Ceylon Tea.

The Uda Pussellawa Agro-climatic region, falls under the high grown elevation, is situated in the Eastern slope of the mountains on the fringe of Uva and leading on to Nuwara Eliya of Sri Lanka (Maps enclosed). Since 1867, tea has been cultivated and grown in the tea gardens and manufactured in tea factories geographically located in the Uda Pussellawa Agro-climatic region, covering plantations from around 4000-5000 feet (1300-1600 meters) above sea

level. The extensive mountain ranges and valleys that make up this area includes sub districts of Maturata, Ragala and Halgranoya as well.

(d) Uda Pussellawa is reputed for tea of subtle quality, due to different climatic zones within the region. The mild atmospheric temperature and dry winds that blow across the valley invigorating the tender leaves with inherent substances help to stimulate quality of Uda Pussellawa tea. Uda Pussellawa tea is predominantly hand picked by experienced workers who select only the tender-most leaves and bud. Uda Pussellawa tea enjoys both domestic and international reputation for unique quality and character that is associated with its production in the region.
